PROFILE SETUP FEES

some milled profiles require
additional per job setup fee

CUSTOM MATCHING

specific door matching may
increase cost (determined
on case-by-case basis)

HOW TO CALCULATE FINISHED DOOR SIZE FROM CABINET OPENING SIZE

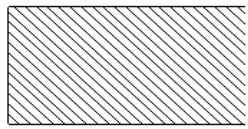

SINGLE door → add twice the overlay to the opening's width and height → example: ½" overlay and 15 x 23" opening → one 16 x 24" door
2 PAIRED doors → after add to width, subtract ¼" gap, then divide by two → example: ½" overlay and 23 ½" x 23" opening → two 12 ¼ x 24" doors
